Who are Big Yellow?

Tailored
mining
services

Expert
technical
advice

Decades of
management
experience

What's in a name

The Big Yellow name does not refer to big yellow pieces of mining equipment, but is based on an area that was mined long ago in Northern Queensland called the small yellow snake. We wanted to find the big yellow snake that old timers always talked about but never found.

The **strong and capable traits of those miners are reflective of our company, our leadership and our approach.** Our branding takes inspiration from the ochre colours of the regions in which we operate.

BIG YELLOW

**Big Yellow helps
Australians build
their business with
modern equipment
and expert advice.
Large scale quality and
professionalism from
a small, dynamic and
experienced team.**

Our team of experts build genuine partnerships with our valued clients and suppliers, building success together. Most of our work is repeat business and testament to our excellent customer service.

We support your business with expert technical advice and decades of management experience.

With Big Yellow's strategic network and experience, small to medium sized mining companies no longer need to wait behind the big guys for efficient and expert mining services.

Everything we deliver is specific to your project, including:

- Tailored Mining services that are specific to your project and delivered quickly
- Expert technical advice from a qualified and knowledgeable team
- Decades of mining management experience to guide decision making and give your company a competitive advantage

Just like we support our customers, we also invest to make lives and local communities better. 5% of our profits are invested in community projects.

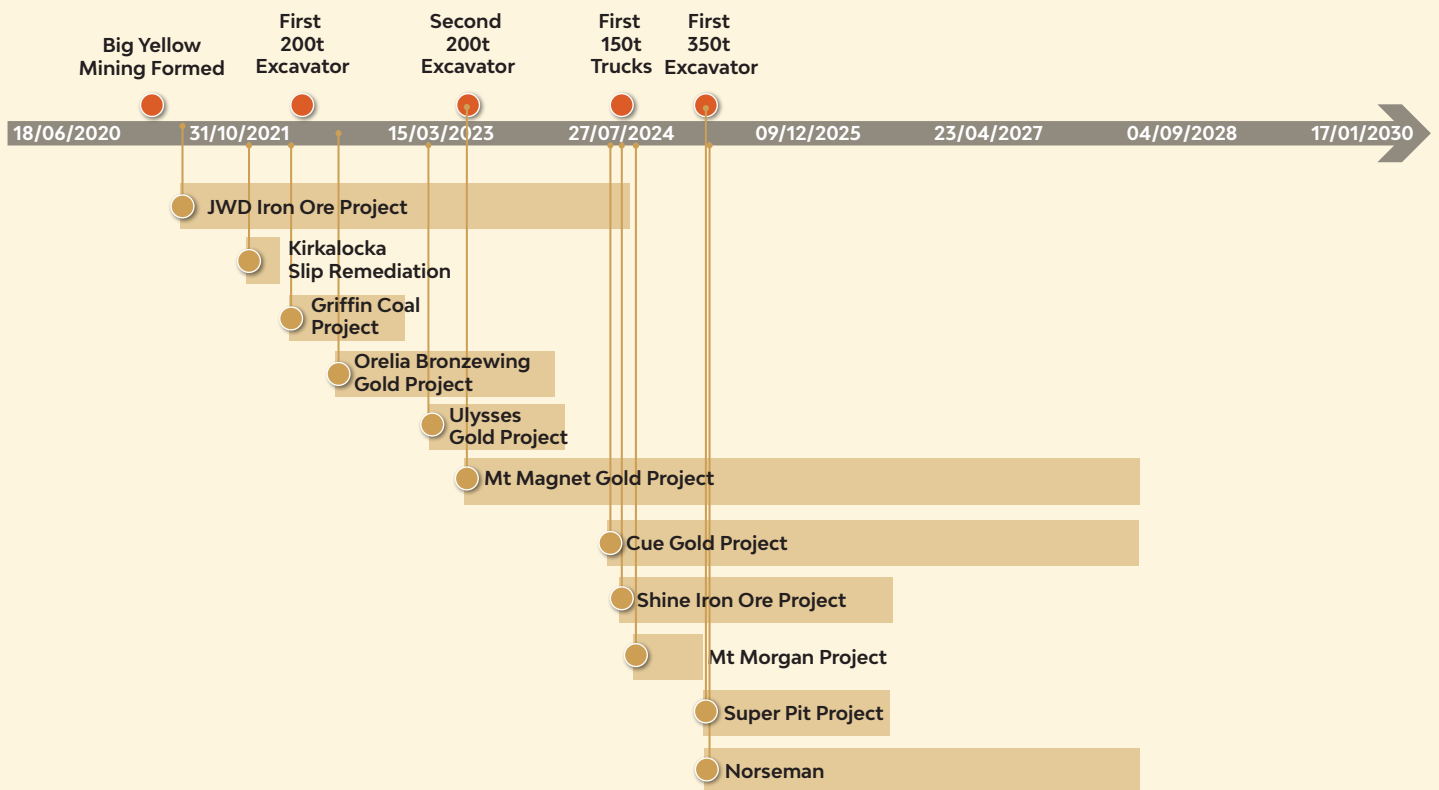

“ Big Yellow is a WA small business, focused on other small businesses. We know how important it is to get the equipment and support your needs, on time and at a fair price.”

Big Yellow Director, Mitchell Wallace

BIG YELLOW

History

Big Yellow was started by Dave Edwards and Brad Gordon in early 2021. Since that time, we have continued to grow and build our capability targeting mid-tier gold mining companies in Western Australia.

Why Choose Big Yellow

Full-service solutions tailored to your business

Big Yellow is the ideal partner for exploration companies that have discovered a deposit and want to become a producer or small companies that require technical experts and management experience to take operations to the next level.

Reliable Equipment

We use trusted global brands and our team is up to date with the latest technology. Big Yellow clients always have access to the most advanced equipment.

Customer service

Our tailored mining services are specific to your project and delivered quickly. Most of our work is repeat business and testament to our excellent customer service.

Flexible options

We offer a wider range of services, low capital options and the flexible terms that other contractors won't.

Industry Experts

Our team of experts build genuine partnerships with our customers. We can support your business with expert technical advice and decades of management experience.

Our Expert Team

Our experienced team set us apart from other mining contracting companies in Australia. We're industry experts with decades of experience. Big Yellow is responsive and you speak directly with our hands on managers. We build long terms relationships with our customers and build success together.

Mitchell Wallace

With over 30 years' experience in the resource sector, Mitchell has a solid reputation in the industry. He has built an extremely valuable network, is an experienced General Manager with strong executive management expertise and is highly skilled in negotiation, operations management, predictive maintenance and engineering services.

Mitchell has a Grad Dip Business Management from the Curtin Business School and also completed an Advanced Management Program (AMP) from the Harvard Business School Executive Education.

Bradley Gordon

Brad is a seasoned resources executive with over 35 years in the mining industry including gold, copper and mineral sands industries. He is a visionary & strategic leader and a proven mid-tier mining CEO. He has led major turnarounds in challenging geopolitical & operational environments and has an unrivalled track record in the industry. Brad has increased production, improved profitability & operational efficiencies and grown market capitalisation for major projects around the world.

Brad's strength lies in his exceptional leadership in very challenging environments. He is a passionate & engaging communicator who can bring teams together, build trust and can connect with people at all levels from mine operators to country Presidents and Ministers, Board members, analysts, shareholders and the media.

Brad has a Mining Engineering degree from the Western Australia School of Mines and an Executive MBA from INSEAD, France.

David Edwards

David has 40 years senior management experience in the mining and construction industries and has helped companies that are in the early stages of inception to develop into sustainable entities. He has also started multiple businesses that have all grown to be successful in their own right.

David's strengths lie in his strategic approach and his ability to communicate with all stakeholders. He is passionate about achieving beneficial outcomes for all parties involved.

Our expert team of mining management & technical personnel also includes:

- Mine managers
- Mining engineers
- Geologists
- Mine surveyors
- Metallurgists

BIG YELLOW

Our leadership team is the essence of what truly sets us apart from other mining contracting companies in Australia.

Our commitment to

Great Customer Service

We have a track record of delivering great value and great service to our customers.

We understand that resource projects are in remote locations and can be unpredictable. Big Yellow's experience and customer specific solutions allow us to respond quickly to issues and keep your project moving.

Our experienced team works closely with all stakeholders including mine companies, owners, local councils, major contractors, permit issuers, builders and operators to ensure all timelines are met.

Big Yellow builds a partnership with our customers, working with you every step of the way, from planning through to equipment and service delivery and on-going management for the life of the project.

Field Service Support & Mine Maintenance

**Big Yellow are specialists in mining
and civil equipment maintenance.**

Whether the job is intricate or simple, we have the expertise to repair the problem, minimise downtime and get your machinery or vehicle operating at peak performance as quickly and safely as possible

Our team has the extensive knowledge, expertise and drive required to complete all critical maintenance and repair work. Our work is completed safely, on time and on budget every time.

Our team of Field Service Technicians & tradespeople are fully qualified and job ready, holding current police clearances, full employment medicals, and inducted on multiple mine sites.

Big Yellow vehicles are equipped with high quality tools and the latest diagnostic equipment, ready to tackle even the toughest jobs. No matter how remote your location, we have your equipment maintenance needs covered.

BIG YELLOW

Support and Maintenance services include:

- Heavy Duty Diesel Mechanics
- Auto Electricians
(DIDO & FIFO)
- Planned shutdown support
- Component changeout support
- Mobile plant rebuild support
- Planned maintenance, servicing,
and repair support

BIG YELLOW

Commitment to safety

Everyone getting home safely each night is our number one focus.

We care for employees, our customers and our mates.

Big Yellow follows rigorous Occupational Health and Safety, Return to Work and Environment protocols.

We actively encourage continuous safety improvement and a safety culture where our team is committed to preventing injury to people and damage to equipment.

Commitment to community and local jobs

Just like we support our customers, we also invest to make lives and local communities better.

Being involved in the communities we work in, is important to Big Yellow. 5% of our profits are invested in community projects. We financially support local community groups, schools, sporting clubs and charities doing great things.

Big Yellow is proud to proactively support local jobs and the employment of Indigenous Australians.

Commitment to diversity and inclusion

We're committed to providing a safe, inclusive and diverse workplace for our employees and respecting the workplaces of our customers.

We support inclusiveness of gender, physical ability, nationality, heritage, culture, sexual orientation, religious beliefs, physical ability, age and level of education for all of our employees.

Big Yellow actively supports flexible work arrangements to suit people's needs we're proactively working towards greater gender balance and greater participation by people with culturally diverse backgrounds in our workforce.

We know inclusive and diverse teams are good for our business, good for the sectors we work in and good for our communities.

Commitment to environment

With our customers, we build sustainable projects, with care for our environment at all times.

Big Yellow complies with all environmental requirements of Local, State and Federal governments.

We have procedures in place to ensure we maintain environmental compliance with all laws, regulations and internal company procedures
